
Registration Instructions for MathXL

Before you begin: To register for MathXL you will need to have:

- A valid **e-mail address**.
- A six word **student access code** purchased from the bookstore (with a new book or purchased separately) *or* a credit card to purchase the access code online.
- A **course ID** which is provided by your instructor.

Registration steps with an access code: Follow these steps to register into MathXL if you have already purchased a MathXL access code from the bookstore.

1. In any web browser, go to <http://www.mathxl.com>
2. Underneath **Register Now** click on the button labeled **Student**. on the next page click **Ok! Register now**.
3. Click **Yes, I have an access code** and then **Next**.
4. If you already have a MathXL (or MyMathLab) account, click yes and input your login name and password. If you don't have an account, click no and create a new login name and password.
5. Input your access code and click **Next**.
6. Input and/or verify your personal information and click **Next**.
7. On the Confirmation & Summary page, you can click **Log In Now** to get to your course.

Registration steps without an access code: Follow these steps to register into MathXL if you have not purchased your access code and wish to do so online.

1. In any web browser, go to <http://www.mathxl.com>
 2. Underneath **Register Now** click on the button labeled **Student**. on the next page click **Ok! Register now**.
 3. Click **No, I need to buy access** and then **Next**.
 4. Select the length of access: 6 month - \$60.50, 12 month - \$85.80, or 24 month - \$102.85. Then click **Next**.
 5. At the bottom of the License Agreement and Privacy Policy, click **I Accept**.
 6. If you already have a MathXL (or MyMathLab) account, click yes and input your login name and password. If you don't have an account, click no and create a new login name and password. Click **Next**.
 7. Input and/or verify your personal information and click **Next**.
 8. Enter your payment information, then click **continue** and submit your payment.
-

Entering the course: To enter the course for the first time, follow these steps.

1. In any web browser, go to <http://www.mathxl.com>
2. Under Sign In, on the upper right, click **Sign In**.
3. On the Sign In page, enter the login name and password that you created when you registered and click **Sign In**.
4. On the welcome page, click **Enter MathXL**.
5. Select "I am taking a course that is using MathXL, and need to enroll in my instructor's course". Then enter the course ID that your instructor has provided and click **Enroll**.
6. From now on when you log in you will be taken directly to your course.

Notes:

- Write down your username and password and don't lose them!

Login Name: _____ **Password:** _____

- When registering, use the same name that you are registered under with Merced college, no nicknames.
- When asked for your email address, please use an email address that you will actually use. It does not need to be the school email address.
- If you choose the 12 or 24 month access, you can register for as many classes as you want (one at a time) during that time period. For example with the 12 month access a student could take Math 81 and Math C in back to back semesters with the cost of one 12 month access.
